

### Generator Testing for Cyberport Expansion Project

To accommodate engineering requirements and safety standards, Gammon Construction Limited will be conducting intermittent generator testing from mid-June to mid-July 2025, Monday to Saturday, between 9:00 AM and 6:00 PM. During the testing period, there may be impacts on the surrounding environment, and the engineering team will adjust arrangements accordingly as needed.

A preliminary drill for the testing is scheduled for early June, after which the official testing will commence.

We sincerely appreciate the public's understanding. For any comments or inquiries, please contact the site public relations officer, Ms. Mani WONG Man Ling (Tel: 9136 2767).
